Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1, 2 and 4-6 are, drawn to an apparatus, classified in class 452, subclass 32.
- II. Claim 3 is, drawn to a method of advancing a natural casing along the length of hollow meat stuffing tube, classified in class 452, subclass 30.

Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case, the process of advancing a natural casing along the length of the hollow meat stuffing tube can be performed by hand, for example, the hand can merely grasp the casing and move the hand/casing along the tube.

IF THE APPLICANT ELECTS GROUP I, THEN THE FOLLOWING RESTRICTION REQUIREMENT IS PROPER.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1 and 2 are, drawn to a tube, classified in class 431, subclass 354+.
- II. Claims 4-6 are, drawn to a system, classified in class 452, subclass 32.

Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2)

that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because an ordinary discharge tube with meat propel therethrough will move the casing along the stuffing tube. The subcombination has separate utility such as mixing gas and oxygen in order to enhance the flame burning at the end of the tube.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

A telephone call was made to Mr. Zarley on March 07, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.
